

Project Training

RMYC works with project partners to provide additional training to educate Corpsmembers of the purposes and benefits of their work and to inspire them to consider a career in conservation as a result of their personal interactions with conservation professionals. These trainings may include:

- **Fence Construction**
- **Invasive Species Identification**
- **Stand Exam Monitoring**
- **Compass Navigation**
- **Rock Retaining Wall Construction**
- **Erosion Control**
- **Tree Rehabilitation & Planting**
- **Mud Plastering and Historic Preservation**
- **Non-Native Fish Removal**
